AMERICAN & FOREIGN PATENTS

R. H. EDDY, Solicitor of PATENTS (Late Agent of U S. Patent Office, Washington, under the Act of 1837.)
NO. 76 STATE, OPPOSITE KILBY ST., BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries.—Caveats, Specifications, Bonds, Assignments and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by if not immeasurably superior to any which can be offered them elsewhere. The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents

All necessity of a journey to Washington to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practicioners with whom I have had official intercourse.
CHAS. MASON," *Commissioner of Patents.*

"I have no hesitation in assuring Inventors that they cannot employ a person *more competent* and *trustworthy,* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,"
Late Commissioner of Patents.
Boston, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that one is *now pending.* Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

From Sept. 17th, 1857, to June 17th, 1858, the subscriber, in course of his large practice, made, on *twice* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor,* by the Commissioner of Patents.

"I bluse for you," as the *rouge* pot said to the old maid.

As a general rule, a *fashionable* beau, like a bow in the sky, can't make both ends meet.

It is much to be feared that "the glass of fashion" is the wine-glass.

Those always absent in company should be always absent from it.

A miser undertakes to make the most of everything, by making no use at all of anything.

"Custom invariably lessens admiration." Not invariably. Ask the shopkeepers.

It is certainly a paradox that we are naturally desirous of long life, and yet unwilling to be old.

If wine improves by age, elder wine should command a high price.

"A penny saved is twice earned." Then it isn't worth saving.

Probably the reason why so little was written in the Dark Ages, was that people couldn't see to write.

REPUBLICAN NOMINATION.

FOR PRESIDENT,

Abraham Lincoln,

OF ILLINOIS.

FOR VICE-PRESIDENT,

Hannibal Hamlin,

OF MAINE.

National Scientific Association.

FIRST DAY.

WEDNESDAY, Aug. 1, 1860.

At half past 10, this body met in the State House, in this city, and was called to order by Prof. Hitchcock, former Vice President.

Prayer was offered by the Rev. Dr. Dumont, of this city.

After this, His Honor Mayor Cranston was introduced, and delivered the following address of welcome:

Mr. President, and Gentlemen of the American Association for the Advancement of Science.

In behalf of the authorities and the people of Newport, I cordially welcome you to our pleasant Island City by the sea. You visit us at an interesting season of the year, when you will have an opportunity to see what has been done by nature and art to make this city a desirable place of residence; you will also undoubtedly become acquainted with many distinguished persons from various parts of the world, and I am confident that you will long remember the occasion with pleasure as one of the marked eras in your existence.

You are assembled upon soil which is consecrated by hallowed memories. It was in Rhode Island, more than two hundred years ago, that Roger Williams, John Clark and their associates first thoroughly, practically and successfully illustrated to the world the great and glorious doctrine of religious toleration—entire freedom for man to worship God, in an unmolested manner, according to the dictates of his own conscience. For ages before, distinguished Theologians and Reformers had vainly endeavored to secure to the human family that which was finally accomplished, by the great and good men whom I have named, in this small section of the Western world; from that time until this day the people of Rhode Island have carefully cherished and guarded this sacred right of man.

In the fearful and trying days of the Revolution, the people of Rhode Island, having been loyal as long as loyalty was a virtue, and obedient to the Government of the Mother Country until its oppressive demands could no longer be endured,—arose in their power and triumphantly vindicated their rights which had so long been trampled upon with impunity; they gave to the common cause of Freedom, a brave, calm, determined and patriotic defender of the inalienable rights of man,—their noble Green, who was second only to the Father of his Country. In the last war with Great Britain this city furnished her gallant and heroic Perry, who, with his associates, very many of whom were from this city, so nobly and successfully fought the sanguinary battle of Lake Erie.

A short distance from where you are now assembled, at Whitehall, Bishop Berkley lived several years, and on the rocks by yonder Beach he wrote his "Minute Philosopher." In the venerable Redwood Library, which is stored with ancient and valuable works of science, Art and Literature, Dr. Channing "studied ... in this city that Stuart, Malbone and Allston lived and labored in the Art to which their genius and their lives were devoted. Previous to the Revolutionary War the Jews were among the most wealthy, enterprising and valuable citizens of Newport. The Synagogue, which still stands in Touro street, in excellent condition, was the first which was erected in the United States, and worship was regularly held there until long after the Revolution, when the Jews all removed to other cities where their mercantile pursuits could be more advantageously prosecuted. Abraham Touro gave $10,000 for the repairs of the Synagogue; from the surplus interest of this fund the granite and iron fence around the lot was constructed; he also gave $5,000 for the repairs of the street which bears his name. Judah Touro erected the substantial fence around the Cemetery, at a cost of about $12,000; he also gave $10,000 for the purchase of the Park which bears his name, and in which is located the "Old Stone Mill," a mysterious relic of a bygone age; he bequeathed $3,000 to the Redwood Library Association, and $10,000 as a Ministerial and Cemetery Fund for the purpose of paying the salary of a Reader or Minister to officiate in the Synagogue in this city, and to endow the Ministry of the same as well as to keep in repair and embellish the Jewish Cemetery. In addition to these he made, during his life, at different periods, valuable donations to the city. He was the last of a noble race of men who were liberal to all and especially to the city of Newport where they once lived and which they always loved. In yonder Cemetery, consecrated by Jewish rites, sacredly guarded by Christian care, repose the mortal remains of the families of Touro, Lopez, Polock, Riveara, Hart, Franci, Seixas, Hays, Isaacs, Judah and others; while their memories are lovingly cherished by our people, their earthly forms will unmolestedly remain in that beautiful Cemetery until the Messiahship is completely fulfilled.

The foundation of our soil and its rock-bound coast afford an interesting study for Geologists; and the beautiful location of our city, its pleasing and varied scenery, healthy climate and genial air, especially at this season of the year, make it a delightful resort not only for pleasure-seekers and invalids, but for men of Science, Literature and Art, for recreation after their severe mental employment during a considerable portion of the year.

The building in which you are now assembled was erected one hundred and twenty years ago, and from that time to the present the Government of the State has been annually inaugurated in this room; here, also, have the tribunals of Justice held their Terms in administering the law. These walls have frequently echoed with the eloquence of Webster and Choate and many other distinguished advocates,—and the wisdom of Story and other learned Jurists, very many of whom have passed to the final rest of man on earth. In the adjoining Senate Chamber is the original portrait of our beloved Washington which was painted by Stuart. There are many other interesting associations connected with the history of Newport which I might enumerate if time permitted,—but you will undoubtedly be made acquainted with many of them during your sojourn here.

The object of your Association is the Advancement of Science—the utmost developement of the intellectual faculties with which our race is endowed, so that man can not only understand the alphabet of the Creator of the Universe, but also, in a great measure, comprehend the language of His Omnipotence as written in the soil and the rocks, on the Ocean, in the skies, and on and in every material element of His vast Creation. By the progress of Science, by the gradual developement of the mind in consequence of continuous and earnest study, devoted Astronomers have explained to the human family that they need not be alarmed at an eclipse of any of the heavenly bodies, or the appearance of Comets or other unusual bodies in the skies. From the Geologist and the Chemist, Agriculturists have received and are constantly receiving valuable information which enables them to cultivate the soil more easily and successfully; and those who navigate the Oceans are yearly acquiring inestimable knowledge by the efforts of Scientific men. All departments of human industry, all classes of society, in all parts of the world, are being rapidly benefitted by the efforts of the members of such Associations as the one which I now have the honor of addressing. Science is a noble study; by it we do not read the productions of the intellect of a human being, as a learned and fascinating book in literature,—and behold not a beautiful picture or a noble statue, as in Art,—but we read the eloquent language and behold the gorgeous paintings and august statues which emanated from the Creator when He had finished His work, and "saw everything that He had made, and that it was very good," and rested from His labor on the seventh day. His sublime language is indelibly engraved on all portions of the foundation, and everlastingly illuminated over all the broad canopy of His Universe.

Religion and Science are linked in a holy and inseparable union,—for who can behold the wonderful works of the Creator, and study their nature and character,—and yet deny His Omnipotence? Everything in nature speaks of His Divinity; and the true man—the man of soul, intellect and faith contemplates the mysterious works of God with reverential and child-like devotion, and he seeks, not only for his own instruction and gratification, but for that of his fellow men also, to know God in all His works as far as our finite capacity will permit. Thus through and by nature he looks up to nature's God, and in a measure approaches the primeval condition of our first parents.

Pope said,—

"Lo, the poor Indian! whose untutor'd mind
Sees God in clouds, or hears him in the wind;
His soul proud science never taught to stray
Far as the solar walk, or milky way;
Yet simple nature to his hope has given,
Behind the cloud-topp'd hill, an humbler heaven;
Some safer world, in depth of woods embraced,
Some happier island in the watery waste,
Where slaves once more their native land behold,
No fiends torment, no Christians thirst for gold;
To be, contents his natural desire,
He asks no angel's wing, no seraph's fire;
But thinks, admitted to that equal sky,
His faithful dog shall bear him company."

There is a fascination in the faith and philosophy of the aborigines, and a simple yet touching eloquence in their character,—but it is our blessing to live in an age when men are not satisfied to grope on in darkness, and live only as their ancestors lived; there is a genius in man's nature which is progressive—a Divinely created element which, by proper action and careful cultivation, incites his aspiration for a closer communion with, and a more perfect knowledge of, the Infinite Being from whom he came and to whom he must return.

"The soul of man
Createth its own destiny of power:
And, as the trial is intenser here
His being hath a nobler strength in heaven."

I have the pleasure, Mr. President, of presenting to you, in behalf of the authorities of the City, copies of a Road Map of the Island of Rhode Island, with Geological delineations, for the use of the members of the Association.

I again cordially welcome you, Mr. President and Gentlemen of the Association, to our ancient City, and trust that, while your deliberations will undoubtedly materially benefit the human race, your social intercourse with our citizens and visitors will be so pleasant, you will ever remember the occasion with emotions of joy, and return to us at some future period.

Dr. Lea, of Philadelphia, the President of the Association, was then introduced to the assembly, and assumed the duties of the office in a neat and appropriate address.

Papers presented to the Association were then read by their titles by the Secretary.

It was then voted to fill the vacancy in the Standing Committee, and Messrs. Powell, of this city, and James E. Oliver, of Lynn, Mass., were appointed Tellers. The following gentlemen were elected: Professors Rodgers, Agassiz, Lecoute, Silliman, Jr., Bache and Whitney.

The Association adjourned for half an hour, and divided into sections.

Section A is to consider Mathematics and Physics, and Section B Natural History—the former sitting in the Representatives' Chamber, and the latter in the Senate Chamber. Prof. Wolcott Gibbs was elected Chairman of Section A, and Prof. Lyman Secretary. Professors Horsford and Scofield, and Mr. William Mitchell, of Nantucket, were elected members of the Standing Committee. Nominating Committee for this Section, Professors Rodgers, Coffin and Schott.

Section B has organized by electing Col. J. W. Foster, of Chicago, Chairman, Joseph Lesberry of Philadelphia, Secretary, and Prof. Newberry, of Cleveland, Dr. Morris, of Baltimore, and Prof. R. W. Gibbes, of Columbia, S. C., as Sectional Committee.

Daniel Parish, Esq., invited the Association, with their ladies, to visit him on Friday evening.

The Standing Committee recommended that the hours of session be as follows: in the morning, between 10 A. M., and 2 P. M.; in the afternoon meeting at 4 1-2 and closing at pleasure.

Prof. Bache read a paper upon the "General account of the Results of Part II. of the discussion of the Declinometer Observations made at the Girard College, Philadelphia, between the years 1840 and 1845, with special reference to the Solar Diurnal Variation and its Annual Inequality." It was 45 minutes long.

Prof. Henry, after Prof. Bache closed, made a few remarks, characterizing the latter's results as beautiful, interesting, and as opening the way to future results of great importance.

Mr. James Hyatt also made some remarks in confirmation of the paper by Prof. Bache.

4. 1-2 P. M.

Prof. Hichcock read a paper upon certain points in Ichnology, which drew out remarks from Prof's Agassiz and Rogers.

Prof. Horsford read a paper, upon some of the relations of the Violet and Greene Modifications of chrome Alum to Soda, Potassa, and Ammonia. Prof. Harman read—Reflections on the Origin, Developement and changes of Language. This paper was exceedingly interesting to the audience.

Prof. Loomis read—upon the Great Auroral Display of August 28, and September 2, 1859. This, also, was very interesting, and drew out a warm, exciting discussion, which was participated in by Prof. Coffin, Pres. Hill, of Antioch College, and others.

It was announced, that on Thursday (this evening,) Prof. Henry will deliver a lecture on Atmospheric Electricity, at 8 o'clock, in Aquidneck Hall. The Association will meet at 10 o'clock this morning, in the State House.

A Sign.

Some years ago Judge Douglas started a paper in Chicago called the *Times*, and imported an Irishman by the name of Shehan to edit it. The object of the *Times* was to advocate Douglas' claims to the U. S. Senate, and afterwards to the Presidency.

This the *Times* has done with much energy and ability. Now we learn that the *Times* is sold out to the Breckenridge or Southern party.

Does not this foretell the fate which will attend the supporters of Judge Douglas in the Free States? They will be sold out to Breckenridge for the most they will bring.

Humphreys' Homeopathic Specifics.

CURE PROMPTLY and safely all the more common diseases and ailments to which families are subject.

In all acute diseases, such as fevers, inflammations, Diarrhea, Dysentery, Croup, Rheumatism, and such eruptive diseases as Scarlet Fever, Measles, and Erysipelas, the advantage of giving the proper remedies promptly is obvious, and in all such cases the specifics act like a charm. The entire disease is often arrested at once, and in all cases the violence of the attack is moderated, the diseases shortened, and rendered less dangerous.

Coughs and Colds which are of such frequent occurrence, and which so often lay the foundation of diseased lungs, bronchitis and consumption, may all be at once cured by the Fever and Cough Pills.

In all chronic diseases, such as Dyspepsia, Weak Stomach, Constipation, Liver Complaints, Piles, Female Debility, and Irregularities, old Headaches, Sore or Weak Eyes, Catarrh, Salt Rheum, and other old eruptions, the case has specifics whose proper application will afford a cure in almost every instance. Often the cure of a single chronic difficulty, such as Dyspepsia, Piles or Catarrh, Headache or Female Weakness, has more than paid for the case ten times over.

NEWPORT DAILY NEWS

Later from Pike's Peak—Shooting Affrays—Murder by a Bostonian.

ST. JOSEPHS, Mo., July 31.—The Pike's Peak Express, with Denver City dates of July 23d, arrived this evening.

A shooting affray occurred at California Gulch, resulting in the death of one Smith, from Arkansas, who was pursuing a man named Curtis, for running away with his wife. Smith shot at Curtis, but wounded his wife, when Curtis returned the fire, killing Smith instantly.

Pat. Devlin and Joseph Tafferty had a shooting affray at Colorado City, last Saturday, resulting in the death of Devlin. Taffarty was tried by a people's court, and a verdict of justifiable homicide rendered.

Mr. Hadley was accidentally shot dead by a barkeeper, who was arrested.

James Gordon, formerly of Boston, shot a barkeeper last week, while on a spree, badly wounding him. After two or three attempts to shoot other persons later in the night, he attacked a young German in a saloon and blew his brains out. He was pursued by the citizens the next day and was discovered with a party of his friends in Fort Upton, but made his escape after being wounded and his horse shot. Two prominent citizens have been arrested on a charge of assisting in his escape. One party in pursuit of Gordon came upon another party of his friends, and in endeavoring to escape, one, named Frank Mulligan was drowned, and another was taken prisoner.

A Vigilance Committee has been organized to ferret out and punish the murderers and theives who are now overrunning the country.

The Trip of the Great Eastern to Cape May.

CAPE MAY, July 31.—The Great Eastern arrived at 8 o'clock this morning, with 2087 passengers. Her sea anchor became loose by the breakage of some takle, and was secured after great difficulty, but not until after she had received some bad dents in her bow. The sea was smooth after leaving Sandy Hook.

The stop-stock in the ice compartment was accidentally left open, flooding the storerooms and rendering the provisions and drinking water scarce, the latter selling on the voyage at ten cents a glass. Five hundred of the passengers slept on deck. The accommodations were meagre, and the passengers held a meeting and adopted resolutions of indignation. The ship sails to-night for New York.

LOCAL ITEMS.

The Douglas Committee.

There appears to be some *squirming* among the members of the Committee appointed by the "Democratic" Caucus on Friday night, to receive the HON. S. A. DOUGLAS, who, it is expected, will arrive here this evening. It seems that the meeting which was called as a "Democratic" one, made up a committee, not from the *Democratic party* only, but from members of "*all parties*," and that also without having previously gained the consent of those who were placed upon it; the consequence of which is, that "the *medley*" thus formed will not be likely to hold together, as will be seen by the following letters from persons whose politics are antagonistic to those of Mr. Douglas:

NEWPORT, R. I., Aug. 1st, 1860.

G. T. HAMMOND, Esq.,—

DEAR SIR:—I observe my name published as one of the Committee of Arrangements for the reception of the Hon. Stephen A. Douglas. I decline serving on said Committee, as I do not wish to be identified with any political or party demonstration.

Your obedient servant,
CHAS. C. VAN ZANDT.

MR. HAMMOND, *Dear Sir*:—I observe by the Daily News of Monday, that I am mentioned as a member of the committee appointed to welcome the Hon. S. A. Douglas to Newport. My name was used without any authority from me, and I do not wish or intend to serve on the committee. Yours Truly,

PARDON W. STEVENS.

Newport, Aug. 1, 1860.

[From the Newport Advertiser]

MR. ATKINSON,—

SIR:—In your paper, of to-morrow, I wish you to say that my name, as published in the *Daily News*, as one of the Committee for the reception of Senator Douglas, was used without my authority, and might leave an inference that I was in favor of his election to the Presidency. Although it would give me pleasure to welcome any distinguished gentleman to our city, yet none more so than Messrs. Breckinridge and Lane, in whose favor I am for an election to the Presidency.

Yours, with respect,
J. A. HAZARD.

THE PRESS-GANG.—There are some twenty members of the press, from New York, Boston, &c., at present in town. Among them are Chas. P. Bosson, Esq., of the *Boston Herald*, at the Ocean House, T. C. Wilson and W. W. Shore, Esqs., at the Atlantic, and — Thayer, Esq., of the *New York Evening Post*, at Downing's.

☞ We understand that the Newport Artillery were invited, by the Committee of Arrangements, to join in the reception of the Hon. S. A. Douglas on Thursday evening, but that they feel under the necessity of declining the invitation.

Reception of Judge Douglas.

The following programme for the reception of Hon. Stephen A. Douglas to-night, was handed us for publication late last evening:

Mr. D. is expected to arrive about 6 1-2 P. M., by steamer Eagle's Wing, when a salute of fifty guns will be fired under the direction of the Newport Artillery, who have been employed by the Committee for the occasion.

On the arrival of the boat at the wharf, a procession will be formed in the following order:

Band.
Mechanic Rifle Company of Providence.
Citizens of Newport.
Citizens of Providence.
Band.
Hon. Stephen A. Douglas, in a barouche, drawn by 4 horses [Marshal Committee of arrangements and invited guests, in carriages.

The route of the procession will be up Thames Street to the Parade, up the Parade to Touro Street, up Touro Street to Touro Park, where Mr. D. will be welcomed in a speech from His Honor Mayor Cranston. There will also be a display of fireworks.

A WORD TO INVALIDS.

All who have any serious or troublesome disease will very naturally seek advice somewhere, and this leads me to say a few words on the CHOICE OF A PHYSICIAN. And first, LET ALL QUACKS, IMPOSTERS AND HUMBUGS ALONE. If you have an intelligent physician in your vicinity apply to him, and follow his direction for a sufficient length of time, and he will probably cure you; if not, then apply to one who makes your disease a SPECIALITY, for no physician in general practice, no matter how eminent, can treat a given disease or class of diseases as successfully, as one of the same ability who devotes his whole attention to them. Educated physicians, hitherto, have stood aloof from making a speciality of private diseases, and hence, they have been monopolized by quacks. The fear of losing caste in society, or of being classed among charlatans by the profession, has too long stood in the way of the most desirable result. What disgrace is there in treating a class of diseases as a speciality, that all physicians treat in general practice? Ricord of Paris, and Acton of London, both make PRIVATE DISEASES a speciality, and yet, they have a fame as enviable as it is world wide. In fact, it is the only remedy for one of the most heinous and destructive systems of quackery in private diseases, as practiced in all the larger cities throughout the country.—But to return. I said let quacks and imposters alone. Their advertisements fill the newspapers, and are well calculated to deceive the inexperienced, made up as they are of the most extravagant PRETENSIONS, but without a shadow of an EVIDENCE of the truth of what they say. Advertising in itself is manly, but DECEPTIVE advertisements are an abomination; and no advertising physician is entitled to ANY CONFIDENCE WHATEVER, who does not give to the public the most undoubted guarantee both of his honesty and his skill.

In offering my services in a speciality which as heretofore been almost exclusively in the hands of imposters, I ask no man to employ me who by the references and testimonials that I shall give, is not fully convinced that I shall treat him courteously, deal honorably and with the strictest fidelity, and give him the best possible chance for a speedy and permanent cure.

WILL CURE THE DYSPEPSIA,
WILL CURE THE HEARTBURN,
WILL CURE CRAMPS IN THE STOMACH &c.

AROMATIC DIGESTIVE CORDIAL.—This excellent and agreeable preparation is one of the best means of improving the appetite, promoting digestion, and giving strength and tone to the stomach, which has yet been offered to the public.

It is an old German receipt, and has been in use for many years in the families of the manufacturers, where it has proved an invaluable remedy for DYSPEPSIA, HEARTBURN, FLATULENCE and CRAMPS IN THE STOMACH, arising from cold or indigestion. All persons having the least tendency to indigestion should never be without it, as a small wine-glass full, taken after meals, will exclude the possibility of contracting the dyspepsia.

It is composed of fifteen ingredients. Bitters and Aromatics, and only needs to be tested to be approved and appreciated.

To persons who feel any disposition to *Chills* or *cramps* after bathing, it is of the highest benefit, as it is a mild but prompt stimulant, and produces a healthy and generous glow throughout the system, immediately after taking it.

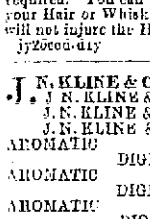

It is an agreeable beverage, and may be used with safety, pleasure and advantage by invalids, and by those in health.

For Sale everywhere, put up in quart bottles. Price one dollar.

FOR HOT OR COLD DISHES OF ALL KINDS.

THIS most delicious and appetising sauce invented by the renowned SOYER for the London "Reform Club" is since his decease, manufactured by the well-known house of CROSSE & BLACKWELL, London, from the original recipe. It is the favorite Sauce in England, and on the Continent, with a high and growing reputation among American Epicures, and is much approved of as a stimulant to the appetite and aid to digestion.

OPINIONS OF THE LONDON PRESS.

"We recommend our correspondent to try Mons. SOYER's new Sauce, entitled the 'Sultana's Sauce.' It is made after the Turkish recipe; its flavor is excellent, and it affords considerable aid in cases of LAW AND WEAK DIGESTION."—The Lancet.

"Savor., Piquant and Spicy, worthy the genius of Soyer."—Observer.

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedies that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Despair Not, Relief is at Hand.

CAUTION TO THE AFFLICTED.

Dr. Cudworth,
NO. 9 ORANGE STREET, PROVIDENCE

AFTER an extensive practice for many years, and witnessing the rise and fall of empiricism to almost an alarming extent, owing to the laxity of the laws in large cities, which gives to the mere ignoramus the same privilege of practicing medicine in all diseases incident to the human system, which the most scientific, skilful and experienced physician and surgeon can in any case claim, deems it his duty to caution strangers to beware of certain up-starts, who make great pretensions to the healing art, without so much as a shadow of medical education.

The experience of many years in cases of a venereal nature, in its various forms, will prove beneficial to those suffering from such diseases, and from his practical knowledge of every symptom consequent on, or arising from badly cured cases of Venereal Complaint, he would caution all having any secondary symptoms remaining, to be at once cured properly before it has undermined their constitution, and broken down their intellectual faculties.

LOOK TO YOUR CASE IN TIME—Medicine prepared at a moment's notice.

All communications will be promptly attended to.

TO YOUNG MEN—The temptations to which youth are constaly exposed, and the various snares laid to entrap them by the vicious and designing are fearfully on the increase in this city of "steady habits." All who may be suffering from any such indiscretions, should bear in mind that the sooner they make their situation known to some practical medical man, the better it will be for their future welfare and happiness Dr. CUDWORTH can be consulted at all hours to advantage.

YOUNG MEN, YOU CAN BE CURED—Dr. CUDWORTH calls the attention of young men to his splendid and invigorating Compounds, so famous for the cure of the following diseases,

Coughs, Catarrh, Bronchitis, Consumption, Asthma, all diseases of the Chest and Lungs, Dyspepsia, Liver Complaint, Cancer, Scrofula, Erysipelas, &c., Pains in the Limbs and Joints, Dizziness in the Head, Ringing in the Ears, Loss of Memory, Confusion of Ideas, Constitutional Debility, Want of Rest, Loss of Apetite, Cold Hands and Feet, Rush of Blood to the Head, Melancholy Forebodings, Trembling in the Stomach, Palpitation of the Heart, Pain in the Sides and Back, and all symptoms caused by Semina Weakness, or any other complaints which indiscreet persons are subject to.

BE WISE—When afflicted with a certain disease do not spend your money to have your health ruined by taking a host of medicines, such as mixtures, extracts, specifics, antidotes, etc, that are advertised as certain cures, which will only drive the unfortunate victim almost to despair. Call at once on a physician who will cure you in a few days

CONFIDENTIAL—Ladies or gentlemen requiring medical advice or treatment arising from any cause, would do well to banish all present diffidence and make an early application to Dr. Cudworth. The Doctor's long and successful practice, together with the marvellous cures, are unquestionable guarantees of his skill and ability.

DR. CUDWORTH'S FEMALE SPECIFIC—This remedy, which has been so successfully used in all cases of Suppression and Irregularity incidental to married and single ladies, is only to be procured at his office, No. 3 Orange street, Providence, R. I.

The testimony as to the invaluable virtue of this curative over all others, is incontestable.

Sent by mail to all parts of the Union, or by express. All letters enclosing $1 for advice, duly attended to.

WORCESTER, Dec. 15, 1858.

DR. CUDWORTH—*Dear Sir*;—I have experienced so much benefit from your remedy that I beg to tender you my most sincere thanks.

I am sir, respectfully, MRS. R. M. S.
